FYI. Not sure if your staff had seen the Clean Air Council, Sierra Club, et al., comments submitted yesterday. Note, the Table of Contents, I cut/pasted below:

### Background

I. The Department should address environmental injustice in this permit application.

1. Chester is an Environmental Justice community.
2. Chester has suffered a disproportionate burden of air pollution from local industrial facilities.

3. Chester has a well-documented history of disproportionately high rates of respiratory and other health problems, especially asthma.

II. The Department has legal authority to address environmental injustice in the context of this permit.

*Stay Safe & Healthy!:-)*
